I am Mayank Sharma. I am pursuing Computer Science and Engineering from Indian Institute of Technology, Kanpur. During my schooling years, I used to open my laptop and PCs and used to fiddle with its parts. Hence, I developed a deep interest towards computer and Software Engineering in general. I am pursuing so and so projects presently. I carry a positive attitude towards life and I'm optimistics about situations. In my free time, I love listening to music (particularly Pink Floyd, Zara Larsson and Queen) and I go to gym as regularly as I can. I have also lost 20 kgs of weight during my freshman year.
